Light Duty Lever Controls
Creative solutions for every application

- Outdoor Power Equipment
- Recreational Equipment
- Tillers
- Snow Blowers
- String Trimmers
- ATV’s
- Motorized Wheel Barrows
- Bicycles
- Marine
- Medical
- Office Furniture
- Automotive & Motorcycle
- Off-Road Vehicles

These Light Duty Lever Controls are the perfect compliment to Wescon’s tension cable products. This unlimited combination provides the opportunity to create numerous solutions to the most demanding applications for your remote vehicle operating systems.

Applications:

Ground drive engagement
Light duty cable tension applications
Marine
Light duty brake controls
Recreational and sports
Throttle controls
Clutch engagement
Throttle twist grip controls
Furniture release controls
Seat adjustment controls
Wheelchair brake and adjustments controls

**Grips**

**Fin Grips**
Here is a grip that was designed specifically for a new look, without sacrificing comfort. The finned design makes it a natural for many specialty applications. Uses are limited only by your imagination. Universal size gives it the versatility to fit almost any product. It stays pliable in cold weather, yet soft with a sure grip.

**RV Grips**
Here is the perfect grip for a wide variety of recreational vehicles. Because of its special design, it is an ideal grip for applications where brakes, throttle or clutch are controlled with a lever. Stays soft and pliable down to -40°F.

**Soft Touch Grips**
This grip is ideal for industrial and outdoor equipment applications. It features an ultra-soft touch to reduce hand and arm fatigue. The core is fluted to provide a cushion of air that insulates the operator from vibration. Ribbed design and nonslip rear flange add to operator comfort and it stays pliable in cold weather. Use it on lawn mowers, snow throwers, wheelbarrows, hand trucks and many other applications.

**Thru Grips**
Designed as a companion to our standard fin grip, the “Thru Grip” aids in the handling of a tube or bar in the “middle” and not just from the end. Optional holes in the flange allow easy routing of throttle cables for a neat appearing package.
